3000 FT SECOND GROWTH EASTERN ASH PLANK, For sale by HENRY LAW

WEDDING AT FLORENCE.—A correspondent of the *Age* writing from Florence under date of February 1st 1863 relates the following account of a wedding which came off at that place, affording some merriment for the boys:

We had a *high toned* wedding here on Friday night, then oysters and a dance. The wedding party consisted of *fifty* young gentlemen and *three* young ladies—the pride of Florence—the bride included. We were enjoying ourselves hugely when, lo and behold, one of the aforesaid young ladies had vamosed the ranch, and run off with a young web foot. The excitement was great, about fifty young gentlemen with the old woman, hunted every place in town, but no could catch, how could do? The young gentleman (web foot) finally concluded the next morning, to bring the young lady back, providing the old woman would consent to their marriage as soon as she (the young lady) gets a divorce from her first husband. The town is all quiet now. I forgot to mention that the bridal apartments for the young and handsome couple was the jail. Sheriff Keenan, with his usual liberality, having given said building, *bed* and board to the runaway couple, which may account for the reason that fifty young men with the lady's sister, armed with lanterns and whisky, could not find their lonely retreat.

REPUBLICAN RESOLUTIONS.—Below are the resolutions passed at a meeting of Republican Senators soon after the battle at Fredericksburg, which led to the resignation of Mr. Seward. They have only now found their way into print:

First—The only course of sustaining this Government, and restoring and preserving the national existence and perpetuating the national integrity, is by a vigorous and successful prosecution of the war—the same being a patriotic and just war on the part of this nation, produced by, and rendered necessary to suppress a causeless and atrocious rebellion.

Second—The theory of our Government, and the early and uniform practical construction thereof, is that the President should be aided by a Cabinet Council agreeing with him in political principles and general policy, and that all important public measures and appointments should be the result of their combined wisdom and deliberation. This most obviously necessary condition of things, without which no administration can succeed, we and the public believe does not now exist; and therefore, such selections and changes in its members should be made as will secure to the country unity of purpose and action in material and essential respects, more especially in the present crisis of public affairs.

THAT JUDGESHIP.—The *Call* expresses surprise that a member of the Legislature of California had sufficient confidence in the truth of the rumor that Latham had been appointed to the Supreme Bench of the United States to have made it the subject of a resolution. It may be that some of the Senator's friends in this State have been advised that this is the fact; but we cannot bring ourselves to believe that Mr. Lincoln has made so unworthy an appointment. Politically, Latham is neither fish nor flesh; self interest or a popular breeze acts on his principles with the certainty of a rudder on the direction of a ship. He has been aptly compared to a wind mill, that revolves just as well when the wind is from the South as when it blows from the North. Such a man at such a time should be intrusted with no public position, especially not with one of the exalted character and influence of a Supreme Judgeship. We sincerely trust the rumor is without foundation.

THE MEASLES.—A correspondent of the Detroit *Advertiser* says that a decoction of oats is infallible for the cure of measles. Take a pint of oats and put them in a tight vessel, pour on boiling water and let it stand a short time, then give it to the sick person to drink. It must be pretty warm. In fifteen minutes you will see a change for the better.

FRIDAY MORNING, FEB 27, 1863

Complexion of the News

The San Francisco *Bulletin* of the 16th inst., holds the following comments upon the aspect of affairs, as summed up from the details of war news received up to that date, which we regard sufficiently clear and correct to copy in full

After several days of interruption, the telegraph has finally succeeded in bringing up the news to the hour when we go to press to day. Congress has apparently come to a decided position on all financial questions—During the past week, an act passed authorizing the issue of $150,000 000 of Legal Tender notes. A few days previously $100 000,000 of the same class of currency was emitted to pay up army arrearages Previous to that time, about $300,000,000 of greenbacks were afloat, if we remember correctly This it is probable that the Secretary of the Treasury now has full authority to keep $550,000,000 of greenbacks in constant circulation As these notes are convertible into U S 6 per cent. bonds, the intention evidently is to supply the wants of Government by the funding process, issuing new quantities of legal tenders as fast as the older issues are absorbed As a means of carrying out the new system, a law has been passed taxing all bank circulation at the rate of 1 per cent for the ensuing two years, and 2 per cent thereafter The present currency demands for carrying on the business of the country is estimated at rising $500,000,000. The 1 and 2 per cent tax is intended to drive all bank issues from circulation as money, leaving the U S. legal tender notes as the only paper money in use By this means Government practically borrows, say, $500,000,000 of money from the people without interest, securing almost the entire advantages heretofore monopolized by the banks. In this connection it will be seen that the Senate has already passed Sherman's bank bill. What the design of this bill is has not been stated, but it probably makes further provisions for securing to Government the advantages heretofore enjoyed by banks.

In a military point of view, there is nothing exciting, but that great movements are making for perhaps the final struggle of the rebellion in the vicinity of Vicksburg is quite evident. The rebels claim to have repaired their railroads so as to readily concentrate large reinforcements at Vicksburg Their army at Fredericksburg is again reported as greatly reduced, the portion withdrawn having been sent in the direction of Charleston, and to the Southwest. The same authority reports Mobile as only protected by 4,000 Confederate troops. These statements are all to be taken with allowance It is admitted by the enemy that many able bodied men are fleeing from Alabama and Mississippi to avoid service under the Conscription Act, and this admission is confirmed by the fact that Gen Rosekrans is recruiting his army materially at Murfreesboro from Alabamians, Mississippians and Tennesseeans, who prefer voluntary fighting on the Union side to being drafted into the rebel service. This is a most encouraging sign. It shows that the process of separation between loyalists and rebels occupying the same territory is going on, while the near presence of our armies gives at least some chance to those who have never ceased to love the Union

But the striding point of news from the army of the Southwest, is the inauguration of Gen. Grant's plan for drowning the enemy out of the Delta of the Mississippi He has cut the levee on the Mississippi side of the great river, not far below Memphis, creating such a flood along the river borders that guerrillas can no longer approach to fire upon our steamers taking supplies to the armies near Vicksburg. How extensive this system of war is to be extended is only a matter for surmise, The amount of destruction that can be accomplished by opening numerous crevasses in the levees along both sides of the Mississippi down to New Orleans, is truly frightful to contemplate. The property of half a million people, occupying enough of the States of Arkansas, Mississippi and Louisiana to make a good sized State, may in this manner be as completely inundated as the Sacramento Valley was last winter By adopting this course, there would be but a few pieces of land big enough to fight a battle on left out of the water between Vicksburg and New Orleans One-third of the city of New Orleans itself would be submerged, and friends and foes throughout Louisiana would suffer alike Of course nothing but a military necessity will justify such a system of warfare, but the Mississippi must be opened

Gen Rosekrans' army at Murfreesboro is now in direct communication with Louisville, thus giving him double-means of communication with the Ohio river Nearly all Tennessee is now in Federal possession In this respect that State is far more reduced than it was at the most promising time last winter

The English Government is urged by the London *Times* to wait and see what becomes of the American Republic before taking any steps to build a Canadian Pacific Railroad, terminating in British Columbia Perhaps it will be well to wait, and if the American Pacific Railroad, of which California is in duty bound to construct her part, gets a good start within a year or two, John Bull may find nothing left for him to do

The United States Senate has returned a list of 48 Major Generals and Brigadier Generals to the President, asking that they be revised before any action is taken towards confirming them This is as much as to say to the President, if you don't withdraw at least a portion of your military nominations, we, the Senate, will reject them In this connection it is stated that Major General Cassius M Clay has decided to resign his position in the Army and return to Russia as American Minister

The conscription bill introduced into the United States Senate, or agreed to by the Military Committee of that body is modeled in a great degree after the European laws of conscription—taking first the young unmarried men, and exempting whoever has infirm parents or helpless children to support by his industry

Miscellaneous Paragraphs

The man who cudgelled his brains for an idea has been fined for a malicious assault

In the United States Senate, on the 16th of January, Mr Harding of Oregon, presented a memorial from the widow of the late Col E D Baker, for a pension

Some of the southern papers contain a rumor that Gen Hindman had executed ten Federal officers in retaliation for the execution of the ten Confederates in Missouri by Gen McNeil

Prentice, of the Louisville *Journal*, says "those who talk of a reconstruction of the Union, with New England left out are no better than the other rebels" which statement tersely sums up the whole question

The Visalia *Delta* fears that as soon as spring opens there will be another rush of secessionists southward to join Dan Showalter, and advises people about Visalia to keep a sharp eye upon their horses

It is said that the worms have made sad havoc among the strawberry vines in some portions of California the present season, which will greatly reduce the average yield of this delicious fruit

Semmes, the pirate of the *Alabama* turns up to be of Philadelphia origin His mother was a native of that city the daughter of James Peale who was the son of Charles Wilson Peale, the founder of the celebrated Museum Her sister married Dr Staughton once famous as a Baptist preacher

Some secesh papers have asserted that Massachusetts has a great many deserters from the Federal army An exchange replies that they are like the Rhode Island artillerists at the battle of Edward's Ferry they have deserted to "that bourne from whence no traveler returns"

The report, January 31st, of the Senate Finance Committee, on the civil Appropriation bill, strikes out the clause reducing the mileage of Congressmen to ten cents per mile, and curtails other minor appropriation and also reduces the estimate of the Agricultural Department from $130 000 to $60,000 and the printing of the laws from $17 000 to $4,000

The American residents of San Juan Island held a public meeting on the first of the present month, by request of Captain Bissell who, it seems, was about to assume the Governorship of the Island and resolved that they believed the Island was a portion of the United States domain, and wishing to be known as loyal citizens, without the least semblance of secession, that they intended to be governed by the laws of the United States, that they will at all times cheerfully recognize the lawfully constituted authorities of Washington Territory, and when necessary aid them in the discharge of their duties hence, they refused to concur with Captain Bissell in recognizing him as their Governor, or that he had the power or authority to make laws for their government believing that, by the arrangement made by Gen. Scott, and His Excellency, Gov Douglas, the military were placed there to exercise a police supervision over the citizens, and subjects of their respective governments, and to aid the civil authorities of those governments in enforcing the laws upon their respective subjects and citizens, or in protecting them in their lives, property, and all the rights to which they are entitled

A TRAGEDY —Private letters from Colville give the details of a terrible tragedy at that place, the particulars of which are as follows A ball was arranged to come off in the town, and the young folks—married and single—were invited A desperado, named Charles Harper, went to the house of a man named McRice, to invite his (Mc 's) wife to the dance For some reason or other, the wife refused to go, and words passed between her and Harper Finally the husband intervened, and told Harper that if the woman did not want to go, there was no use in pressing her Enraged at this remark, Harper turned on McRice and beat him over the head with a pistol This done, he deliberately discharged his revolver at the woman, the ball taking effect in her neck, causing immediate death Harper then made his escape, but was followed down the river and finally captured by the Sheriff The officer had made his arrangements to return with his prisoner, when the facts coming to the knowledge of the miners, they forcibly took possession of the prisoner and hung him to the nearest tree This Harper was a fellow well known in the upper country and is believed to have belonged to a gang of thieves, who made their head quarters at Florence last summer. McRice is well known at the Dalles, where he resided some years and is a brother of the man who was murdered at the crossing of the John Day, early in the summer of 1859. This prompt meting out of justice to Harper will have a good effect on others of his class who are now in the valley —*Mountaineer*.

THE CONTEST ENDED —The Sacramento *Union*, in speaking of the late Senatorial contest in the California Legislature, says

We congratulate the people of the State upon the termination of the Senatorial contest and upon the election of the successful candidate The effect will be to consolidate, strengthen and insure the success of the Union cause in the State It will add thousands of votes to the Union ticket next Fall, which would probably have been lost to the Union cause, had either of the other candidates, worthy as they are personally, been elected Senator The prospects of the national cause will brighten under the election of John Conness as Senator of the United States from California He will take his seat as an independent Senator of marked ability, unflinching integrity, and an inflexible determination to devote, if the sacrifice is demanded his life to his country His devotion to the Union is of a character which no reverses can shake, and whatever may be the course of others, Conness will never despair of the Republic

THE GODDESS OF LIBERTY VISITS CONGRESS —A correspondent of the Sacramento *Union* writing from Washington under date of Jan 17th, says

Day before yesterday just after the House of Representatives had assembled, a tall fine looking woman dressed in deep mourning, entered one of the doors of the east gallery and advancing to the front of the balustrade looked benignantly down upon the members below, for a moment, then drew from under her mantle a small silk flag and unfurling it from its staff she waved the stars and stripes over the heads of the astonished members once or twice, and then rolled it up again departed as she came Who she is and where she came from are unknown Possibly she is the Goddess of Liberty in flesh and blood or America in mourning for her children, and admonishing Congress to be about their business

WEST POINT IN THE SENATE —Considerable discussion was started up in the Senate on the introduction of the bill to make the usual appropriation for the support of the West Point Military Academy Wade, of Ohio, made a savage onslaught upon the institution, which he characterized as the hot bed of treason, a close corporation a place where men go to sponge an education from the Government, which they turn against when they have an opportunity Wilson, of Massachusetts defended the Academy, said that when the war broke out there were 820 West Point officers in the service of the United States of whom 197 have resigned on account of the rebellion and from these and other figures he proved that the officers of West Point education were quite as loyal to the Government as any other body of men selected from the whole nation had proved to be Nesmith of Oregon took the same view and instanced among other West Point officers who had fallen in defense of their country Greble Winthrop Stevens Mansfield Lyon, and many such, of whom we might say—

> How sleep the brave who sink to rest
> By all their country's wishes blest

On the same side was McDougall of California who defended the West Pointers, eulogizing their value in the Mexican war where according to Gen Scott they shortened the conflict by years He also replied with great feeling to the assertion that General Halleck had never been under fire by stating that he had served on the Staff through the whole of the Mexican war Wilson reverted to the charge of Dane of Kansas that no West Pointer had shown a ray of genius in this contest by saying that Lyon, Rosekrans and Mansfield beloved by the nation for their prowess were educated at West Point The fact that petty jealousies arise in the army on account of the exclusive character of the institution, as shown in recent Courts martial would be done away with hereafter, when the new blood of the volunteer forces should be further incorporated into the service by changes and promotions from the ranks

FROM LEWISTON —We take the following items from the *Golden Age* of Feb 18th;

Mr Mitchell has kindly allowed us to make extracts from a letter he has just received from Placerville in the Boise mines The writer states that the people are flocking into the mines notwithstanding the cold weather or depth of snow Placerville is building up rapidly, considering the season Lumber is sold as fast as it can be whip sawed out of the logs, and the future of Placerville looms up cheeringly The writer further says that he has two extraordinary rich claims which will yield from $60 to $100 to the hand when a full day's work can be done Further discoveries are made by prospectors up towards the headwaters of Payette and Boise, that promise better than those already made The writer is fully convinced that it is the poor man's country

Judge Wyche, of the First Judicial District, has been requested by our citizens to give his opinion in relation to the validity of the acts of the Legislature over this reservation The questions are of great interest to the people on the reservation

NOTICE —If Mr John A Forman will communicate his whereabouts to the *Golden Age* office, he will hear something to his advantage

CITY.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

Legal Tender Notes this Day—65 cents.

CIRCUIT COURT.—In the case of Plank Road Company *vs.* James Terwilliger, the jury returned a verdict in favor of Mr Terwilliger, assessing the damages caused by the building of the road across his land at $12,000, payable in gold coin. The Court refused to accept the verdict, and sent the jury out with instructions to correct the same, as it was not within their province to say in what particular kind of legal tender the amount should be paid.

FAIR.—Yesterday was the first pleasant day we have had for a "coon's age," and it was really refreshing to see the bright faces and cheerful countenances produced by it. We doubt not that the day will be remembered for some time to come.

BLOODED HORSE.—A large and fine appearing horse, valued at $8,000, was brought up on the *Sierra Nevada*. He is of the "Black Hawk" stock. We did not learn the name of his owner or where he will be taken to.

MISTAKE.—A mistake was made in the advertisement of Mr. A. B. Richardson's sale of watches, jewelry, etc. The sale will take place Tuesday, March 3d, instead of Friday.

BOISE PRICE CURRENT.—The *Age* says that the following Boise Price Current, has been carefully prepared by a miner who left Placerville, January 13th.

Flour, 60@75c. per lb., sugar $1@$1 25 per lb., coffee, $1@1.25 per lb., molasses, $6 per gall; nails $1.25@$1.50; picks, $8, shovels, $8, beef, 15@25 cents; apples, 75c@$1 per lb.; beans, 75 cents per lb; peas, 75 cents per lb; blankets, $20@$25; sluice forks, $12; long boots, $12, bacon, 75c@$1; shirts, $5; socks, $1.75@$2; whisky, $8 to $12 per gall; gum boots, $25@$30 per pair; whisky cocktail and all other drinks, 50 cents.

The same informant states that the whole country is filled with paying dirt, that is, dirt that will pay $4 and $5 to the hand per day but no person will work in any portion of the mines where it will not pay better than $5. He says they have struck it now.

MINERALOGICAL CABINET.—Below appears a card from the Treasurer of the Mint, at San Francisco, soliciting specimens for a cabinet of Minerals, about to be inaugurated in connection with that establishment. The known and acknowledged liberality of the mining [illegible] is appealed to for contributions:

SIR: I respectfully invite your attention to an effort I am inaugurating to establish a "Cabinet of Minerals," as connected with the Branch Mint U. S., in this city. The [illegible] utility as well as propriety of such a Cabinet, is too obvious to need comment. [illegible], such specimens of mineral ores, etc., as you may feel at liberty to transmit for such purpose, will be duly appreciated. An accompanying note, descriptive of the specimen, and other matters of interest connected therewith, is desirable. As there is no fund provided for such purpose, I appeal directly to the well known liberality of the mining interest, to make such contributions for the public good.

Respectfully yours,
D. W. CHEESMAN, Treasurer,
Branch Mint, U. S.

[illegible]—The sudden changes of our climate are [illegible], BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "BROWN'S *Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this [illegible] a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them useful for clearing and strengthening the voice. See advertisement. dec16daw3m

White's Fever and Ague Drops—For the cure of AGUE, PANAMA FEVER, NEURALGIA and GENERAL DEBILITY.

This medicine has been used in private practice for many years with great success. Indeed, in no instance has it failed to effect a speedy cure, in Ague especially, one bottle having been found sufficient in most cases and in none are more than two bottles required.

A great number of testimonials could be given to verify these statements, but the proprietor prefers relying upon the merits of the medicine alone. A cure is guaranteed in nine cases out of ten.

Prepared only by ROBERT WHITE, Chemist and Druggist, Main street, Placerville, and Broadway, Upper Placerville. For sale by all respectable Druggists throughout the State.

HAVING secured the services of Dr. C H MACK, formerly of New York city, and late of St Louis, who is an experienced and skillful Dentist, I am now prepared to manufacture and insert Artificial Teeth by the following methods, namely GOLD, SILVER, RUBBER, AMBER, PORCELAIN BASE, GUM ENAMEL, RUBBER ATTACHMENT, CHEOPLASTIC CONTINUOUS GUM, MICA and ENAMELED PLATE WORK. Some kinds of this work is recommended above all others, and needs but an inspection to prove its superiority for cleanliness, durability and life like appearance to any artificial teeth in use.

Filling and cleaning teeth, and all operations in *Dental Surgery*, either *mechanical operative* or *surgical* performed in the most thorough and highly finished manner. None but the most permanent and finished operations performed, and no inducements to patients by low priced or roughly finished operations. I use no *cement* in filling teeth and seek in price to make no competition with *cheap* Dentists, and desire the patronage of such persons only as wish their operations performed in the most *perfect* and *skillful manner*.

Operations that fail to give satisfaction need not be taken or paid for. Office hours from 9 A M to 4 P M. Indigent persons who are unable to pay full professional charges will call before and after office hours. — feb4 tf

The GREAT SUCCESS of the CENTURY [illegible] MEDICINE

Too Much Cannot be Said

[illegible]

Awaken the Magnetic Life within us

[illegible] awaken attention to the subject [illegible]

No Compromise with Disease.

[illegible]

To the Ladies of California.

Dr Van Zandt [illegible]

Baffled the Skill of Physicians

Developments of life and animation. Impotence, nervous headache, sinking at the stomach, wandering pains, wasting away of strength, extreme debility and lifelessness, hectic cough, sleeplessness, unpleasant dreams and that general depression of life's powers which go to render her life a misery and death a [illegible]. Dr. Van Zandt, with his new method of [illegible] the Electro-Galvanic current, together with his remedial measures which are adapted to the necessities of California, will assure you of a complete and radical recovery of all bodily and mental infirmities, and will restore you to usefulness and spare you a blessing to your family and society.

All the world over

wherever disease exists, whether special to the soil and climate or common to all regions—epidemic or casual, acute or chronic, contagious or hereditary—it is as necessary to restore the ELECTRO-GALVANIC equilibrium, especially in California, as it is to [illegible] the starting. This statement is based upon a series of facts extending through many years and verified by hundreds of patients, so that no principle of science, no rule of experience, no result of any well known cause, rests upon more sure and unassailable foundations than that which underlie the world wide reputation of Electricity for the cure of all nervous states of the body, faulty digestion, mental and physical debility or prostration, coughs, asthma, wandering pains of a rheumatic, gouty or neuralgic character, and all forms of disease, the result of scrofula or cachectic habit of body.

None Need Despair of Relief.

If you have ulcers which will not heal—pains that can not be removed—melancholy which you cannot shake off—loss of power which you cannot regain—depression of spirits which weigh you down—wakefulness that knows no sleeping—business that languishes for want of energy—a [illegible] which no society can fill—suspicion which no assurance can allay—Go to Dr Van Zandt for his great success and the safety with which he administers his new method of electrical excitation together with his remedies which are adapted to the requirements of climate and constitution will assure you of a complete and radical removal of all bodily and mental infirmities, within the scope of science and man to remove.

The Eye and Ear Diseases.

It must not be forgotten by the eye and ear sufferers that Dr Van Zandt has made these afflictions an especial study and that he is the only Surgeon in our State who has a diploma for that branch of practice. Very many of the eye and ear troubles are purely deranged nervous action, and are cured by his electro-galvanic battery—as amaurosis, squinting, cataract, floating specks before the vision, twitching of the eyelids, nervous deafness, roaring and buzzing noises in the ears, giddiness etc. All operations successfully done on those delicate organs of sense.

DR. BAKER'S PAIN PANACEA.

Is composed entirely of healing gums, and vegetable oil and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted who have not used it, to try it for the following diseases; if they are not satisfied with its healing properties, the money will be cheerfully returned by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning, noon and night, it will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhœa, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe the gum at the same time; it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe the parts affected morning and night, at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls upon your horse, apply the Pain Panacea, it will take out all the inflammation and heal the sore in a short time.

Speaking to the Point—The Sacramento *Union* of the 15th inst says "We are permitted to take the following extracts from a private letter written to a gentleman of that city, by a relative in Brooklyn, New York The writer speaks feelingly and to the point After referring to the prosperous condition of business, he says

What I most fear is a pro slavery demonstration against the Government Ever since Seymour's election the secession element has been gathering strength and impudence until I fear it will soon defy the Government I see they are working along very fast Look at Wall's election in New Jersey, and Buckalew's in Pennsylvania By intimidating War Union Democrats such men were voted into the United States Senate They are trying the same game in our Legislature, and it seems as if they might be successful The facts are that the secession influence rules the Democratic party, and the bulk of that party are duped into carrying through measures to suit Jeff Davis and his gang of cut throats, without being themselves aware of what they are doing

The writer then refers to the manner in which the city "shysters" stuffed regiments for the purpose of defrauding the Government out of the bounty offered, and then continues

It mortifies me to tell the truth in regard to military matters But there has been so much rascality connected with preserving the country that I almost despair of my country And if Lincoln don't kick out all the pro-slavery Generals, who are more anxious to preserve the domestic institutions of the south than they are to preserve the Union, then good bye country, good bye liberty. All will be sacrificed to conciliate a bigoted party, which would rather the country should perish than to have slavery endangered They are now trying here to sow the seeds of discord between the east and the west The contemptible sneaks have not enough manliness to come out for the south openly, but under the Democratic cloak they labor to serve their master Jeff Davis.

The author of the letter from which the above extracts are copied is a man of business and not a politician. But he shows that the people understood the objects of the secession sympathizing Democratic leaders in New York and the west The people begin to see that the intention of those traitors at heart is to divide the loyal States into sectional parties, and cause either another division and revolution, or compel them to submit to an acknowledgment of the independence of the rebel Government of Jeff Davis. The elections in the west gave them courage, and they are beginning to throw off the cloak and to demonstrate by their acts that Jeff Davis was correct when he assumed that his brother Breckinridge Democrats in the north would interfere to prevent a Republican Administration from using force to put down rebellion. The rebel-sympathizing Democratic leaders in the loyal States are now engaged in carrying out the programme, as published by the rebel leaders. They are doing all in their power to make a diversion in favor of their brother Democrats in the rebel States They are doing their utmost to meet the expectations of the rebel leaders, and to render themselves infamous in the eyes of all true and loyal Americans. In the latter, they are very sure to succeed.

Employment of Negroes as Soldiers—The following is an extract from a letter written by an officer in Bank's expedition, and published in a Boston paper

The fortifications at Port Hudson are said to be very strong, the heavy artillery guns of monstrous size, and are worked entirely by negroes, who, it is now fully admitted, make the best soldiers in the world for heavy artillery service, being very muscular men The sound of the cannon does not affect their brain, and they can endure fatigue much better than white men, and seem to be perfectly in their element while working the heavy guns within the fortifications Our own Government are beginning to realize this fact, and Forts Jackson and St Philip are now being manned by negroes There are now about 3,000 of them thoroughly drilled in ground movements as infantry, without arms, by Gen. Phelps, who fully realized what we must come to in regard to employing negroes as soldiers

Gen. Butler could not comprehend this fact, and the result was that Gen Phelps resigned and went home. Gen Butler changed entirely his opinion, armed these very men that Phelps had trained and disciplined, and it is fully admitted that we have no troops that are under better discipline and who take so good care of their arms or better care of themselves. These are the very men who are now being sent to Fort Jackson and elsewhere

I saw yesterday a company of some 75, who had been selected within the last eighteen days by Gen. Sherman's orderly, and were being drilled by him, and they really showed great proficiency in company movements This company is to be filled up to its maximum (156) and is to work the heavy guns on a fortification.

An Extraordinary Regiment from Iowa—One of the most extraordinary regiments in the national service, is the 37th Iowa volunteers, Col. J. B Kincaid The regiment is over one thousand strong, and has been raised since the 1st of September. It is composed of men who were originally exempt from military service at the time of their enlistment, and a very large majority of the men are over forty-five years of age There are nearly 600 professed Christians including thirty ministers. More than half the men owned the houses they lived in before enlisting, and more than a third have sons in the army Many of the men are worth from $25,000 to $80,000. The oldest man in the regiment is near 80 years old, and he has two sons and a grandson already in the army When the regiment left Iowa it was pronounced the healthiest regiment by far that ever encamped in that State, the sickness not amounting to one tenth of that of some others These white haired old men now trudge the streets of St Louis with muskets on their shoulders, picking up stray soldiers and guarding head quarters with all the cheerfulness of a glory loving soldier The ordinary incentives to a soldier's life—glory, popularity, renown or pay—have no charms for them, and their enlistment must be attributed solely to a desire to serve their country They appear to enjoy good health, though an exchange of the bracing climate of Iowa, for the warm, humid atmosphere of St Louis, must be very trying indeed, to their constitutions The regiment will be honored and praised in the history of this war.

Morgan—The Buffalo *Advertiser* says it is currently believed in that vicinity that the famous guerilla chief, Morgan is none other than a fellow named Timothy Fuller, who formerly lived in Erie County, Penn and was sent thence to the Penitentiary for cattle stealing After serving out his time he went to Kentucky, and changed his name to Morgan. He is in congenial business now

Proclamation by the Governor.

Executive Office, Portland Oregon }
January 6, 1863 }

By the President of the United States through Brigadier General George Wright commanding the Department of the Pacific and Brigadier General Benjamin Alvord, commanding the District of Oregon, I have been requested to raise six additional companies required to complete the 1st Regiment of Cavalry, Oregon Volunteers They will be needed the coming Spring on the frontiers of this State and Washington Territory, and for an expedition against the Snake Indians, who have so long been mercilessly engaged in robbing emigrants and murdering our fellow-citizens I cannot doubt that the citizens of Oregon, who have always promptly responded to any demand for their military services, will in like manner respond to this call, thereby showing their loyalty to the Government and aiding in chastising marauding bands of Indians which infest our frontiers

The enlisted men, when mounted, will be supplied with horses by the United States, it being understood that they will be mounted or not, as shall be deemed advisable by the Government

Propositions to raise a whole company, which will furnish their own horses and horse equipments, may be entertained. The men are in such cases entitled to forty cents a day for the use and risk of their horses and horse equipments

Each company will consist of one hundred enlisted men, and when mustered into the service of the United States to serve for three years, unless sooner discharged

Recruiting offices will be immediately opened at Portland, Dalles City, and perhaps at other places. By the Governor,

ADDISON C GIBBS.

Cyrus A Reed, Adjutant General
